## FAILURE AT EAST CHICAGO, IND.

The Chicago Iron and Steel Company Compelled to Make an Assignment.

CHICAGO, Ang. 7 .- The Chicago Iron and Steel Company has assigned. Its works are located at East Chicago, Ind. The plant cost \$250,000. It has been established two years and has been doing a good business in smelting and manufacturing iron and steel rails and heavy structural work. Outstanding book accounts are placed at \$75,000. The company claims its liabilities to be only between \$70,000 and \$90,000, of which \$40,000 consists of indorsements of the firm of Parkhurst & Wilkinson, which failed a short time ago. The company's attorney states the failure was precipitated by threats of the Standard Oil Company to commence suit for \$3,000. In order to prevent preferences being made a conference was held Saturday night, and it was decided to liquidate at once. Notices have been sent out calling for a meeting of creditors, and it is expected the firm's affairs will be satisfactorily arranged within a fortnight.

Praise for Muncle.

Special to the Indianapolis Journal. WASHINGTON, Aug. 7 .- When Controller of the Currency Eckels read, to-day, of the action of the fifty of Mancie's wealthiest citizens in signing a guarantee bond for record to msure the payment of all deposits in Muncie's four national banks, in order to quiet apprehension and maintain the credit of that city, he said to the Journal porrespondent: "That is patriotic, unselfish and good citizenship. That is the kind of stuff men should be made of, and it makes a man proud of such citizenship. If the intelligent and patriotic citizens in all sections of the country, who know that their banks are safe and honestly couducted, would band together in that fashion, it would improve the credit of the country, and put a stop to bank failures in most instances. I should think a depositor would be ashamed to draw his money out under such circumstances, simply to hoard

it, and keep it from circulation.' George H. Ford, of Ohio, national bank examiner, to-day took charge of the affairs of the Citizens National Bank. He expects to be ready to make a statement by next Wednesday.

Fisk, of Colorado, a delegate to the silver convention, has remained in the city in consultation with prominent bimetallists from all sections of the country, perfecting the plans to force Congress to give the Nation free comage of silver, and some measure of justice to the debtors and producers. He stated to a press reporter that a determination had been reached to use every possible argument to convince the East that it was to the interest of all classes to restore silver and give the country a proper per capita circulation with which to do business, and if the East persisted in reducing the volume of money, which would enslave the West and South, that a combined effort out the protective tariff and to pension every soldler who served in either the federal or confederate armies, their widows and orphans, and to enact a law providing a graduated income tax for that purpose.

Narrow Escape from War.

Now that the crisis has passed the facts about the momentons two days of the 28th and 29th of July are radually coming out. MR. CONN BETTER EXPLAIN.

The Great Co-Operative Band Instrument

Factory Has Closed Down. Special to the Indianapolis Journal. ELKHART, Ind., Aug. 7.—The band instrument factory of C. G. Conn. Democratic Congressman from this district, has been running for weeks on short time, eight hours a day, with a greatly reduced force. To-day it was announced in his own paper, Daily Truth, that the establishment would close down entirely for at least four weeks. The cause given was the general financial stringency and unsettled condition of business. Mr. Conn is conceded to conduct the most extensive manufactory of its kind in the world, and its profits have been enormous for several years. For two years business has been conducted on the profitsharing plan, the first year the employee receiving in dividends, aside from their regular wages, which were generally of a liberal nature, over \$8,000. Last year \$14,000 in dividends accrued to the employes, and everything was lovely. All this was under Republican administration. Last fall, when Mr. Conn was a candidate for Congress, he marshaled his employes-over two hundred in number-on one of the | thought the men were trying to play a main floors of his factory, and informed them that if they would stand by him, work for his election and secured his election he would guarantee them steady employment at better wages than ever. It is presumed that they stood by him. He was elected. For weeks his establishment has been running on short time, with a reduced force, and now it has been closed down. His employes wonder what is the matter with his statement, made when he was a candidate for office, and on the strength of which they

supported him.

GRANT COUNTY FARMERS

Would Rather Feed Their Wheat to the Hoge than Sell It Now.

Special to the Indianapolis J urnal. MARION, Ind., Aug. 7.-Unless there is a rise in the price of wheat much of it in this county will be fed to hogs. It is much richer than corn, but is ground and soaked before it is fed. Among those who will use for that purpose is Recorder Rybolt, a young and progressive farmer. Wheat ground and mixed with corn in equal parts he declares to be the best feed that can be used. He also mixes the wheat with boiled potatoes. Wheat gives the bone and muscle while corn produces fat. Many other farmers will store their wheat and use it for feed unless there is a rise in

Crops Almost Literally Burned Up.

Special to the Indianapolis Journal. PERU, Ind. Aug. 7 .- The drought which has continued almost uninterruptedly throughout this county for the past ten weeks, with only a slight shower on Sunday morning, is assuming a serious phaseand even should it be broken the conditions that now exist are reported so serious that the corn and other crops will be almost a total failure. Everything is said to be almost literally burned up. The creeks and streams are dry so that even water in many cases is bard to get for the stock. The Wabash river was never so low, and the trustees of the water department are considering the advisability of deepening the channel leading to the cribs, fearing a famine should the conditions exist & B. railroad north of here Saturday evenmuch longer. SHAMELESS WASTE OF GAS.

Oil Men in Jay County Drill Wells, and then Let The m Spout,

Special to the Indianapolis ( ...... BLUFFTON, Ind., Aug. 7 .- The gas company in this place has entered suit at Portland to compell Geo. W. Botes, an oil contractor, to close a gas well which has been open ever since the 3d of July. The well :s situated three miles south, and three- there.

fourths of a mile west of Pennville, Jay FOUGHT OUT OF HIS CLASS county, and lets escape 7,000,000 cubic feet of gas each day. Citizens are indignant because of this useless waste of gas, and, as the company of this place obtains its supply from near this field, it is feared the supply may become exhausted. The theory of the oil men is that after the gas escapes the oil field will be better producing and as a result make no effort to stop escaping wells. The last Legislature passed a law to prohibit such wastefulness and the State has an inspector for this purpose. Although his attention has been called to the well twice he has given no response. Blufftonians feel as if the State inspector should take steps to close this well or resign his position and let some one be appointed who will do his duty in this particular.

AFTER THE WHITE CAPS.

An Old Case Finally Comes to Trial at Jasper, Dub sis County.

Special to the Indianapolis Journal. PETERSBURG, Ind., Aug. 7.-The famous White-cap cases are being tried in the Dubois Circuit Court at Jasper, with Judge Duncan, of Princeton, on the bench. The defendants in these cases are: J. H. Brown, Thomas Highfield, William Highfield, Joseph Ellis and Levi Ellis, The principal witnesses will be William Coffee and wife, the victims. They were taken from their beds about two years ago and severely whipped. At that time they lived in Dubois county. They now live here. Over five hundred witnesses will testify, and as each defendant will ask for a separate hearing it will take nearly four weeks to try the cases. Governor Matthews last week appointed Hon. John F. Tieman, of Huntingburg, to assist the State. Both sides are ably represented by legal talent.

After the Sentinel's Scalp.

Special to the Indianapolis Journal. GREENCASTLE, Ind., Aug. 7 .- Curses loud and deep were heaped on the Indianapolis Sentinel, when its Sunday edition reached this city announcing the suspension of the Central National Bank of Greencastle. There was not a particle of foundation for the report, and its only effect was to add to the excitement to which the present financial flurry has given rise. Fortunately for the bank, and the public interests as well, the refutation of the false report reached the distant parts of the county in time to prevent a run on the bank, which is regarded as perfectly solvent. But the contradiction by the Sentinel showed that its managers do not hesitate to com a lie in order to refute one. That paper, in its retraction, said that it had been "imposed upon," leaving the inference that somebody at Greencastle had telegraphed the false information from this city, when the fact is, no such dispatch was ever sent from this city. It first appeared in the Crawfordsville Journal of Saturday, and the so-called "special" was 'prigged" bodily from that paper. The Journal managers give two well-known citizens of Crawford-ville as their authority for the rumor, and the bank managers here are determined to trace its authorship to the guilty parties.

Eddie Pierce Easily Whipped by George Dixon at the Coney Island Arena.

The Latter Showered Blows So Rapidly in the Third Round that the Favorite-Fell and Went to Sleep for Nearly Ten Minutes.

CONEY ISLAND, N. Y., Aug. 7.- Never since the Coney Island Athletic Club commenced its pugilistic exhibitions has such a tremendous throng gathered at its commodious arena as the Pierce-Dixon bout attracted here this evening. Every seat was occupied by the time the opening bout was put on. It is estimated that there were between 8,000 and 10,000 spectators in the building. James Corbett was given a great ovation when he walked into the building, accompanied by Manager Brady and several other friends. They were shown to one of the private booths. The majority of the big betting men fancied Dixon, and they were rather liberal in the odds they offered.

The first bout was between Murphy and McBride, and was for a purse of \$1,000, of which \$200 went to the loser. At 9 o'clock the men put up their hands for the first round. Both showed great cleverness, especially at intighting. McBride appeared to have a trifle the best of the hard hitting up to the fourth round, when he drew first blood. Murphy returned the compliment, almost immediately, by smashing Mack on the nose, and spreading it almost over his face. It was give and take until the tenth round, with McBride in the better condition. The referee awarded the fight to Mc-

Promptly at 9:30 Tom O'Rourke entered the ring, followed by George Dixon. He was given an ovation, but it was a mere nothing in comparison with the applause which greeted Eddie Pierce when he marched lown through the hall from his dressing room and climbed upon the stage. It was a regular pandemonium, as there ere fully twenty Flerce men present to of Dixon admirer. It was ten minutes to 10 o'clock when the men began their battle. The purse was \$6,500, of which the loser receives \$500. Dixon wore nothing but a white jockey strap and brown shoes, while Pierce wore blue trunks, a white belt and dark canvas shoes.

First Round-Dixon led with his left after a little feinting and caught Pierce in the wind. He visited the same spot again. After spome cautious sparring, in which Dixon showed up to the best advantage, the men clinched on the ropes, but broke away of their own accord. Dixon then smashed Pierce with his left and again with his right. A clinch followed and Dixon showed he was a good hand at the game of infighting, and made Pierce break his hold. Dixon caught Pierce again and the round ended.

Second Round-Pierce led lightly on Dixon's face and then ducked a right-hand swing cleverly. A sharp rally followed, of which Pierce appeared to have the advantage. Dixon endeavored to land his right, but was met and stopped very cleverly. Pierce appeared to have gamed confidence

in himself as the round ended. Third Round-Dixon started in for business. He sent in his left and drove Pierce to the ropes. Then followed such a volley of rights and lefts that Pierce must have thought there was a shower of hands and arms. First he became dazed, tried to recover and then went down in a heap. Straggling up before the time limit he was met with lightning-like jabs in the face and jaw that would have settled a bigger and stronger man than Pierce. He sank to the floor and was counted cut. It took nearly ten minutes for him to regain consciousness. Pierce was clearly outclassed.

PATRICK O'DONNELL'S WOE.

Tried to Eject His Son-in-Law and Landed Behind the Bars.

There is an unhappy condition of affairs in the household of Patrick O'Donnell, at No. 320 West Maryland street. Last Tuesday. Katie, the pretty daughter of Patrick, married a young man named William Turner, to whom the prospective father-in-law had taken a violent antipathy. So great had been the dislike of the old man against the young suitor that he and the daughter thought it best to join bearts outside of the city. They did so and pater O'Donnell's anger knew no bounds.

A day or two ago the young couple returned and boldly took up a residence with the old folks. Now Patrick says they shan't live in his house while his wife says they shall, and at intervals, yesterday, the neighborhood in the vicinity of the O'Donneil home was kept agog over the brewing storm. Last night Patrick came down town, filled himself to the rim with good fighting whisky and returned home about o'clock, fully equipped to bonnee his odious son-in-law. He opened the 1:1412. music by attacking Turner, who was immediately reinforced by his young wife. One of Pat's chance blows struck the daughter, and then the mother came to the rescue. For five minutes there was a row in which all hands participated, and which resulted in Patrick's being thrown violently out of the house. He started in search of a police officer, and, unluckily, met patrolmen Richardson and Smith. who went down to the scene of the disturbance to investigate. The result of the officers' research was the arrest of Patrick on the charge of assault and battery. He was locked up while his son-in-law slept a triumphant sleep.

GRAND CIRCUIT RACES.

Infinished 2:13 Trot Won by Phobe Wilkes -Director's Flower Still Unbesten.

BUFFALO, Aug. 7 .- Phæbe Wilkes was this afternoon good enough to land the unfinished 2:13 trot, adding two heats in succession to the one obtained Saturday. She won a race that brought great joy to her backers. The unfinished event furnished the only real sport of the afternoon. The 2:19 trot and the two-year-old trotting stake were straight-heat affairs, and the three thousand spectators ran into the field after each had gone a mile. Angola showed her heels in the 2:19 trot and in the second went the trip in 2:144, which will be her mark until she goes a faster mile. Maud C. was the only one to keep near Angola in the first mile, but after that the good mare Myrtle B. occupied second position, and it was she that forced out the daughter of Wilkes Boy in 2:1412. Directer's Flower, the undefeated filly by Director, had a "cake walk" in the two-year-old trot and she completed her fourth consecutive victory in a jog. What the limit of her speed is has not yet been discovered, and it may be that she will find nothing on the Grand Circuit line that oan go her clip.

Phæbe Wilkes was hardly considered good enough to beat out the other speedy performers in the unfinished 2:13 trot, and the followers of Vie H. lost not a few dollars in backing their opinion. It was expected that the rest over Sunday would improve the chances of the Blackbird mare, but she came sore and brought up the rear in the concluding heats. Alvin made a great run in the fifth heat, but is still high in ilesh and fell between. This week the 5 per cent additional to all starters will be charged to money winners only, and it is expected that the fields will be larger. The programme has been cut somewhat, owing to the failure of many entries to fill under the entrance-fee arrangement. This will make only four days of racing this week. Sanger was burt the most, pieces of flesh being torn from his leg and arm, and his body being covered with light bruises.
